

# Reception - home learning challenges

Here are your new home learning challenges - when you do something, bring it in and show us or add a photo to Dojo ☺

Visit a farm in real life or online - can you see any young animals?

Draw and write some facts about your favourite farm animal.

Make a model of a plant or flower using whatever you like - label the different parts!

Choose some seeds to sow and then watch carefully as they grow!

Look in your fridge/cupboard with a grown up and see what fruits and vegetables you can find. Write a list!

Make a healthy snack using fruit! Be as creative as you like - take photo for your portfolio!

Make a repeating pattern using toys or natural objects you have at home. Take a photo and show us!

Try making some ice cubes with fruit or edible flowers in - pop them in your drink and see what happens!
