

Children's Self Evaluation Of Snettisham Primary 2026

Children's	Self-Evaluation	Form	Professional document by Nayan C
Curriculum and Teaching	At Snettisham Primary School, there is a broad range of subjects that offer opportunities for the students to find curriculums that they are intrigued in.	Attendance and Behaviour	 The attendance in our school is good and people only don't attend when are not able. The behaviour is not a problem and bullying isn't an issue.
Achievement	Snettisham Primary offers trips and challenges to help students grow and achieve in different subjects. We showcase our learning in our everyday assessments and hot tasks.	Personal Development	Personal development is supported by making adjustments our school for the suitability of everyone's needs like book corners and pastoral time.
Inclusion	The diversity and inclusion in our school is an important detail in our community and it is inclusive of different characteristics. People are not judged off of looks, abilities, age or gender identification.	Next Step	We could not expand our range of subject options.  Snettisham Primary School

Children's Self-Evaluation Form		Prof Professional document by: Aidan Herring		 Learning Together, Snettisham Primary School
Points of Focus		Points of Focus		
Curriculum and Teaching:	At Snettisham Primary there is a strong and engaging curriculum including a broad range of subjects which have recurring topics. The Subject Knowledge is very strong here.	Inclusion:	Even if if somebody doesn't have friends to play with at a time we always include them and are a no outsiders school	
Achievement:	The majority of Years 5 and 6 completed The Brilliant Clubs Scholars Programme to a high standard for Year 5 and 6. Year 4s complete a Multiplication Tables Check (MTC) Every year. Year 6s complete SATs in May and the work helps to progress towards high school.	Personal Development:	Everyone at this school develops and I have developed through trips such as Duxford, IMV, Blatchley Park and Parliament. Sports events and swimming lessons help us to develop sporting skills and show our prior learnt skills at these events.	
Attendance and Behaviour:	Children at this school only skip school if highly necessary necessary and classes aim to reach higher than 95% each week. Behaviour is excellent the majority of the time and any problems that do occur are solved quickly. Bullying is not a problem.	Next Steps:	- I think that the Parliament Trip should be repeated as it gives everybody an insight to politics and our country's Government System. - When we learnt about the Solar System we went to a planetarium and did experiments to deepen our knowledge. Other years should do this.

Children's Self-Evaluation Form

Curriculum and Teaching

At Snettisham Primary School there ~~are~~ is a large variety of intriguing subjects. Students >cholars at this school have a studious attitude to learn to help themselves when they become an adult. For example in History we have learnt about the Cold War, World War 1, World War 2 and the ~~suffragette~~ suffragettes.

Achievements

In this school we progress and improve a every year in our learning skills and showcase our learning in our Assessments, Tests and SATS. So in conclusion the Year 6 class ~~are~~ ready for High School.

Personal Development

Additionally, all children get the opportunity to go on school trips ^{new leadership opportunities} and ~~at~~ school trips clubs. For example:

- Parliament
- The Sandringham Centre
- Museums
- Duxford
- Hitler

are ~~all~~ trips that we get the chance to do.

Inclusion

Everyone is included in our school and we show tolerance and respect to everybody in our communities.

Attendance and Behaviour

Pupils at Snettisham Primary are attending to school ~~as well as~~ ^{consequently} the majority of students are at school on time. We have an expected standard on attendance and the ^{the} children and teachers of Snettisham Primary are welcoming, kind, ~~are~~ and respecting to new pupils and ~~not~~ ^{present} pupils - equally. I think that children would love to come to Snettisham Primary School.

Next Steps

I think that Snettisham Primary is a ~~renewing~~ ^{renewing} school but I think that the pupils could be more ~~event~~ ^{event} creative to raise money.

Children's Self Evaluation Of Snettisham Primary 2026

Children's Self-Evaluation Form		
Curriculum and teaching	At Smetham primary we are taught 12 different Subjects that really encourage the Students. Since we have lots of different Subject we also have lots of curriculums but there not just what came to mind first, there thought about so we can have a good education.	Attendance at Smetham is amazing and if someone can go in they will be it the physically can't then they won't. So the attendance is mostly above 95% and the behaviour is great most of the time but sometimes a person could misbehave a little.
Achievement	Here at Smetham we have lots of achievements that would take to long to count but this year alone we have come 3rd in Craydon cup, and 2nd in a year six public speaking competition and so much more.	Personal Development At Smetham my learning has had a huge development and I have real relaxed we don't do this work for nothing we go on amazing trips educational and fun. I believe my personal development were probably my Maths and history that I really enjoyed.
Inclusion	In Smetham primary were never afraid to let someone in actually were very welcoming. Are school values also also really help with this as they teach us how to respect all people and have integrity and tolerance to everyone but there are also the values of love kindness and kindness.	Next Steps even though Smetham is already an amazing school to make it even better I would suggest making letting students help arrange trips and help with ideas to hopefully give the student more independence and to have an opinion of an opinion opinion. this document was created and wrote by: Eric Rawlings

Inclusion.	At Snettisham Primary School we insure that everyone is included. Even if someone isn't your friend you are still friendly with them and you include them with your games. If someone is hurt we will sit with them and support them.	Attendance and behaviour.	At Snettisham Primary we get an attendance of 95% or above. We are expected to have 95% or above attendance. We have R (Removal) and C (Consequence) points for behaviour.
Achievement.	We have achieved many things and progressed much in our learning at Snettisham Primary. We have completed our SATs and will be receiving our results soon.	Curriculum and Teaching.	We have a spiral curriculum, so in reception we would learn about arms, legs, in KS1 we would learn about organs and bones and in KS2 we would learn about eg the respiratory system. We also have high expectations.
Personal Development.	I have developed a love for reading as I have gotten a book. We have a library in our school and we can pick up books from there. I have gotten to the second round of cross country. I have gotten 100% attendance many years.	Next steps.	Our school is very good but there are a few things we don't have: • I think we should have a football tournament for KS1 and not just KS2.
